DATE: February 21, 2019

TO: Alameda County Transportation Commission

FROM: Patricia Reavey, Deputy Executive Director of Finance

and Administration

SUBJECT: Alameda CTC FY2018-19 Second Quarter Consolidated

Financial Report

#### Recommendation

It is recommended that the Commission approve the Alameda CTC FY2018-19 Second Quarter Consolidated Financial Report.

# **Summary**

Alameda CTC's expenditures through December 31, 2018 are within year-to-date budget authority per the currently adopted budget. The agency remains in a strong financial position compared to budget through the second quarter of FY2018-19.

The attached FY2018-19 Second Quarter Financial Report has been prepared on a consolidated basis and is compared to the currently adopted budget on a year-to-date basis. This report provides a summary of FY2018-19 actual revenues and expenditures through December 31, 2018. Variances from the year-to-date budget are demonstrated as a percentage of the budget used by line item as well as stating either a favorable or unfavorable variance in dollars. Percentages over 100 percent indicate that actual revenue or expenditure items are more than 50 percent of the total annual budget through the second quarter of the fiscal year, and percentages under 100 percent indicate that actual revenue or expenditure items are less than 50 percent of the total annual budget through the second quarter of the fiscal year. As of December 31, 2018, Alameda CTC activity for the fiscal year results in a net increase in fund balance in the amount of \$63.4 million mostly due to sales tax revenues received this fiscal year, but have not yet been spent, primarily in the Measure BB Capital Projects and Special Revenue Funds.

# Background

The following are highlights of actual revenues and expenditures compared to budget as of December 31, 2018 by major category:

#### Revenues

Sales tax revenues are over budget by \$23.4 million, or 15.4 percent, and investment income is over budget by \$1.4 million or 34.6 percent as interest rates have been on the rise. Toll and toll violation revenues are over budget by \$1.7 million which will help to fund the targeted maintenance and operational reserve goals established in the I-580 Express Lanes Expenditure Plan, and grant revenues are under budget by \$2.9 million mostly related to timing on capital projects. Grant revenues are recognized on a reimbursement basis and, therefore, correlated directly with related expenditures, so capital and other project expenditures also will be under budget.

### Salaries and Benefits

Salaries and benefits are slightly under budget by \$0.2 million, or 5.0 percent, as of December 31, 2018.

#### Administration

Costs for overall administration are under budget by \$12.1 million, or 70.4 percent, mainly due to debt service costs which incurred costs for only one of the two semi-annual interest payments and no principal payment as of December 31, 2018. Principal payments are made annually on March 1. Debt service costs are required to be recorded when incurred per government accounting standards. Actual expenditures in the debt service fund will equal 100% of the budget by the end of the fiscal year.

# 1-580 Express Lanes Operations

The I-580 Express Lanes expenditures are under budget by \$3.2 million, or 57.4 percent, primarily related to a toll system upgrade special project accounted for in the budget which is not anticipated to begin until late in the fiscal year.

## Planning

Planning expenditures are under budget by \$0.2 million, or 22.2 percent mostly related to delays in contracting and funding agreements which resulted in some work being delayed and invoices coming in later than anticipated.

#### **Programs**

Program expenditures are over budget by \$0.8 million, or 0.8 percent, predominantly due to direct local distributions (DLD) of sales tax revenues. The DLDs have a direct correlation with sales tax revenues; therefore, since sales tax revenues are over budget, similarly DLD expenditures are also over budget.

# Capital Projects

Capital Projects expenditures are under budget by \$91.7 million, or 72.5 percent. This variance is mainly related to delays on certain capital projects and delays in billing for recently executed funding agreements with sponsor agencies. In addition project construction work typically varies by season with less activity in the winter months, however,

activity is expected to increase in the coming months with related expenditures anticipated to be higher in the second half of the fiscal year. There are currently no real budget issues on capital projects.

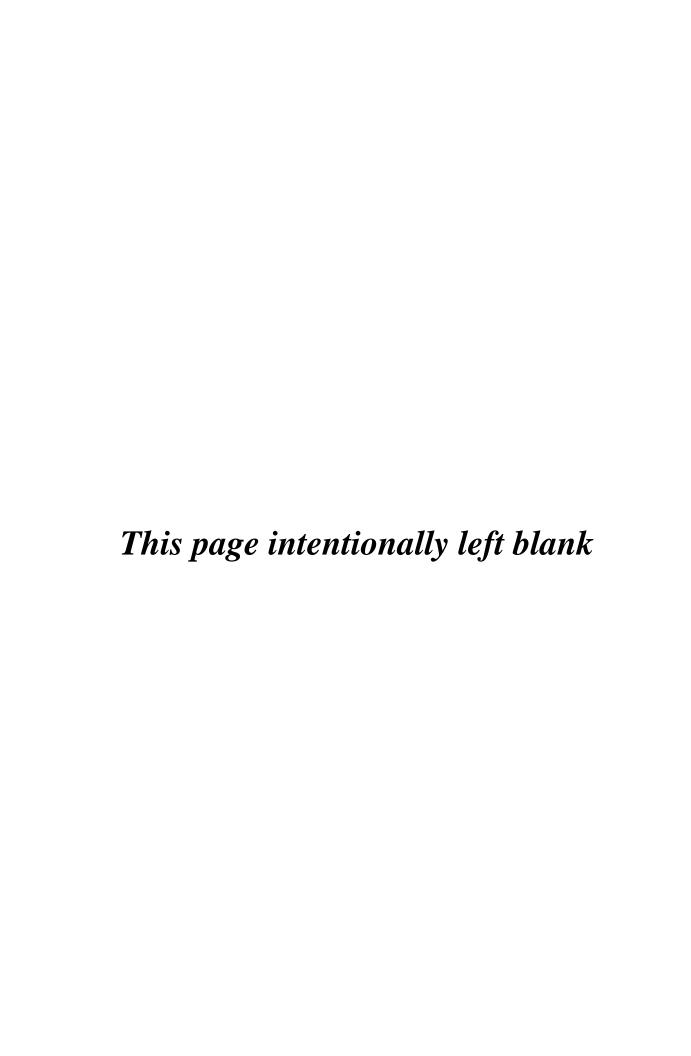

# Limitations Calculations

Staff has completed the limitation calculations required for both 2000 Measure B and 2014 Measure BB related to salary and benefits and administration costs, and Alameda CTC is in compliance with all limitation requirements.

Fiscal Impact: There is no fiscal impact associated with the approval of this item.
