In addition, the project includes an educational component funded by 10% of the total construction cost.	The protected left turns provide separation between pedestrians and vehicles on the crosswalks in the walking shed of the route to school. The solar speed feedback signs provide traffic calming on Buchanan Street. The pedestrian bulbouts on Buchanan at the intersection with Jackson Street shorten the distance children have to cross Buchanan in order to get to and from school. The educational component teaches about safety when walking and bicycling and encourages walking and bicycling to school.	Continuing or Ongoing	10	Other (describe in Column J)	Percentage.
