Alameda CTC Programs Annual Compliance Report 2011-2012 Reporting Year Measure B Program Table 2: Summary of Expenditures and Accomplishments **BICYCLE AND PEDESTRIAN SAFETY**

** Columns L-N: The dollar figures inputted must be consistent with your agency's audit.

Cell: A10

Comment: Project Category:

Bicycle: Bicycle project.

Bike/Pedestrian: Bicycle and pedestrian project. Pedestrian: Pedestrian project.

Cell: B10

Comment: Project Phase:

Scoping, Feasibility, Planning: Early capital project phases, such as project scoping, feasibility studies, and planning.

Environmental: Preparation of environmental documents, such as those related to the California Environmental Quality Act (CEQA) or the National Environmental Policy Act (NEPA). Right-of-Way: Preparing dcumentation needed to secure or dispose of property rights for project.

Plans, Specifications and Engineering (PS&E): Development of the preliminary engineering and engineering estimates.

Construction: Construction of a new capital project,

Maintenance: Maintenance, repairs, renovation, or upgrade of existing facility or infrastructure.

Operations: Operations such as transit, which may include routine maintenance and procurement, or lease of vehicles/equipment; intelligent transportation systems; or corridor system management. Project Completion/Closeout: Inspection/project acceptance, final invoicing, final reporting, and processes for closing out project.

Other: Use if none of the above apply, and define the project phase by selecting Project Type (Column C) and describe the phase under Project Description (Column E).

Cell: C10

Comment: Project Type:

Bike Parking: Bike racks and lockers, bike shelters, attended bike parking facilities, and bike parking infrastructure.

Bikeways (non-Class I): Bike lanes (Class II), bike boulevards, sidepaths, bike routes (Class III), at-grade bike crossings. Includes bikeway maintenance.

Bridges and Tunnels: Bicycle-pedestrian crossings above or below grade. Education and Promotion: Marketing, education, information, outreach, promotional campaigns, and programs.

Master Plan: Bicycle and/or pedestrian master plan development.

Multiuse Paths (Class I): Pathways (Class I) for bicyclists, pedestrians, and other non-motorized modes. Includes maintenance of multiuse paths.

Pedestrian Crossing Improvements: At-grade pedestrian crossing improvements such as crosswalks, roadway/geometric changes, or reconfiguration specifically benefiting pedestrians. Safety Improvements: Infrastructure improvements for bicyclists and pedestrians not covered by other project types on the list.

Sidewalks and Ramps: New sidewalks, sidewalk maintenance, curb ramps, stairs/ramps for pedestrian and Americans with Disabilities Act access.

Signage: Warning, regulatory, wayfinding, or informational signage. Includes signage maintenance.

Signals: New traffic signals or crossing signals for pedestrians and/or bicyclits, signal upgrades, countdown signals, audible signals, and video detection.

- Staffing: Salary and benefits for staff to support projects, programs, or services.
- Traffic Calming: Infrastructure primarily aimed at slowing down motor vehicle traffic.

Other: Use if none of the Project Types apply or for projects that consist of multiple types of improvements. Describe the type under Project Description (Column E).

Cell: G10

Comment: Project Status: Choose project status on June 30, 2012: - Planning in FY 11/12, - Initiated in FY 11/12,

- Continuing or Ongoing, or - Closed Out in FY 11/12.

Cell: H10

Comment: Quantity Complete includes itemizations such as square feet, lane miles, linear feet, etc.

Cell: 110

Comment: Units for Quantity:

Select from the drop-down menu and add any details about the unit or quantity in Column J.

Lane Miles: Measurement to describe length of roadway, street improvements, and bicycle facilities.

Linear Feet: Measurement to describe sidewalk and pedestrian facilities improvement lengths.

Square Feet: Measurement to describe building, floor plan specifications, landscaping, etc.

Cell: K10

Comment: Completed Quantity funded by MB FY 11-12: This column auto-calculates based on the following.

(Total Measure Dollars Spent X Total Quantity) / Total Project Cost = Total MB-Funded Quantity

Alameda CTC Programs Annual Compliance Report 2011-2012 Reporting Year Measure B Program Table 2: Summary of Expenditures and Accomplishments **BICYCLE AND PEDESTRIAN SAFETY**

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years. Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.
 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16.
 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Bicycle/Pedestrian Measure B Pass-through revenues.
 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

FY 12-13 MEASURE B PLANNED PROJECTS (unreserved funds)

Directions:

Use the expandable grouped rows (+/- sign on left of cell 157) to enter detailed information for FY 12-13 Planned Projects that are not included in reserves below. Projects inputted into this section are expected to be implemented uring FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years. Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.
 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16.
 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Bicycle/Pedestrian Measure B Pass-through revenues.
 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

MEASURE B CAPITAL FUND RESERVE

Directions:

Phases

Use the expandable grouped rows (+/- sign on left of cell 306) to enter detailed information for anticipated projects using Capital Fund Reserves. Projects inputed into this section are designated with Capital Fund Reserves during FY 12-13 through FY 15-16. The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16. The expenditure of these funds will be evaluated annually as per the Master Programs Funding Agreement. If a jursidiction does not spend the reserve funds down, they are subject to the fund rescission policy.

 total operation fund reserve
 \$ 50,000
 \$ 10,000
 \$ 50,000

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years. Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.
 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16.
 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Bicycle/Pedestrian Measure B Pass-through revenues.
 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

				MEASUR	E B UNDESIG	INATED FUND RESERVE
Directions: Use the expandable grouped rows (+/- sign on le This fund may not contain more than 10 percent				ed funding per a	innual fiscal year.	Undesignated funds are for general transportation needs such as match funding, project development, studies, or contingencies.

Alameda CTC Programs Annual Compliance Report 2011-2012 Reporting Year Measure B Program

Table 2: Summary of Expenditures and Accomplishments

* Column K: (Total Measure Dollars Spent X Total Quantity) / Total Project Cost = Total MB-Funded Quantity

** Columns L-N: The dollar figures inputted must be consistent with your agency's audit. *** Column N: The dollar figures inputted must be consistent with your agency's audit.

Cell: A10

Comment: Project Category:

Bike/Ped: Bicycle and pedestrian project, program, plan, or staffing.

Mass Transit: Bus, ferry, rail, or shuttle project.

Paratransit: Paratransit services for seniors and or people with disabilities.

Streets and Roads: Streets, roads, or highways project.

Other: Use if none of the above apply, and define category by selecting Project Type (Column C) and providing Project Description (Column E).

Cell: B10

Comment: Project Phase:

Scoping, Feasibility, Planning: Early capital project phases, such as project scoping, feasibility studies, and planning.

- Environmental: Preparation of environmental documents, such as those related to the California Environmental Quality Act (CEQA) or the National Environmental Policy Act (NEPA). Right-of-Way: Preparing dcumentation needed to secure or dispose of property rights for project.
- Plans, Specifications and Engineering (PS&E): Development of the preliminary engineering and engineering estimates.
- Construction: Construction of a new capital project,
- Maintenance: Maintenance, repairs, renovation, or upgrade of existing facility or infrastructure.
- Operations: Operations such as transit, which may include routine maintenance and procurement, or lease of vehicles/equipment; intelligent transportation systems; or corridor system management. Project Completion/Closeout: Inspection/project acceptance, final invoicing, final reporting, and processes for closing out project.
- Other: Use if none of the above apply, and define the project phase by selecting Project Type (Column C) and describe the phase under Project Description (Column E).

Cell: C10

Comment: Project Type:

Bike Parking: Bike racks and lockers, bike shelters, attended bike parking facilities, and bike parking infrastructure.

Bikeways and Multiuse Paths: Bike lanes, bike boulevards, sidepaths, bike routes, multiuse pathways, at-grade bike crossings. Includes maintenance of bikeway facilities. Bridges and Tunnels: Crossings above or below grade for bicycles, pedestrians, and/or autos.

Education and Promotion: Marketing, education, information, outreach, and promotional campaigns and programs.

Equipment and New Vehicles: Purchase or lease of vehicles. Equipment for service improvements, such as informaiton dissemination, fare collection, etc.

Operations: Operations including traffic signal system controls/interconnection, corridor monitoring and management, and transit system operations.

- Pedestrian Crossing Improvements: At-grade pedestrian crossing improvements such as crosswalks, roadway/geometric changes or reconfiguration specifically benefiting pedestrians. Sidewalks and Ramps: New sidewalks, sidewalk maintenance, curb ramps, stairs/ramps for pedestrian and Americans with Disabilities Act access.
- Signage: Warning, regulatory, wayfinding, or informational signage.

Signals: New traffic signals or crossing signals, signal upgrades, countdown signals, audible signals, or signal timing improvements.

Staffing: Salary and benefits for staff to support projects, programs, or services.

Street Resurfacing and Maintenance: Repaving and resurfacing of on-street surfaces, including striping.

Traffic Calming: Infrastructure primarily aimed at slowing down motor vehicle traffic.

Welfare to Work Operations: Transit services to enhance transportation opportunities for persons making the transition from welfare to work.

Other: Use if none of the Project Types apply or for projects that consist of multiple types of improvements. Describe the type under Project Description (Column E).

Cell: G10

Comment: Project Status:

- Choose project status on June 30, 2012:
- Planning in FY 11/12,
- Initiated in FY 11/12,
- Continuing or Ongoing, or
- Closed Out in FY 11/12.

Cell: H10

Comment: Quantity Completed includes itemizations such as the total number of one-way passenger trips, consumers trained, meals delivered, tickets purchased, etc.

Cell: 110

Comment: Units for Quantity:

Select from the drop-down menu and add any details about the unit or quantity in Column J.

Lane Miles: Measurement to describe length of roadway, street improvements, and bicycle facilities.

Linear Feet: Measurement to describe sidewalk and pedestrian facilities improvement lengths.

Square Feet: Measurement to describe building, floor plan specifications, landscaping, etc.

Cell: K10

Comment: Completed Quantity funded by MB FY 11-12: This column auto-calculates based on the following.

(Total Measure Dollars Spent X Total Quantity) / Total Project Cost = Total MB-Funded Quantity

Alameda CTC Programs Annual Compliance Report 2011-2012 Reporting Year Measure B Program Table 2: Summary of Expenditures and Accomplishments LOCAL STREETS AND ROADS

AGENCY NAME : City of Oakland	
DATE :	20-Feb-13

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years.

Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.
 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16.
 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Local Streets and Roads Program Measure B Pass-through revenues.
 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

FY 12-13 MEASURE B PLANNED PROJECTS (unreserved funds)

Directions:

Use the expandable grouped rows (+/- sign on left of cell 157) to enter detailed information for FY 12-13 Planned Projects that are not included in reserves below. Projects inputted into this section are expected to be implemented uring FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.

AGENCY NAME :	City of Oakland	
DATE :		20-Feb-13

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years.

Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.
 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16.
 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Local Streets and Roads Program Measure B Pass-through revenues.
 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

AGENCY NAME : City of Oakland	
DATE :	20-Feb-13

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years.

Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.
 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16.
 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Local Streets and Roads Program Measure B Pass-through revenues.
 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

MEASURE B CAPITAL FUND RESERVE

Directions:

Use the expandable grouped rows (+/- sign on left of cell 306) to enter detailed information for anticipated projects using Capital Fund Reserves. Projects inputed into this section are designated with Capital Fund Reserves during FY 12-13 through FY 15-16. The Capital Fund Reserves is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16. The expenditure of these funds will be evaluated annually as per the Master Programs Funding Agreement. If a jursidiction does not spend the reserve funds down, they are subject to the fund rescission policy.

AGENCY NAME : _	City of Oakland	
DATE : _		20-Feb-13

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years.

Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.
 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16.
 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Local Streets and Roads Program Measure B Pass-through revenues.
 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

TOTAL CAPITAL FUND RESERVE	\$ 2,930,000 \$ 4,105,000 \$	100,000 \$	- \$	7,135,000

AGENCY NAME : City of Oakland	
DATE :	20-Feb-13

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years.

Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.
 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16.
 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Local Streets and Roads Program Measure B Pass-through revenues.
 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

MEASURE B OPERATION FUND RESERVE

Directions:

Use the expandable grouped rows (+/- sign on left of cell 456) to enter detailed information for addressing transportation operational activities using Operation Fund Reserves. This fund may not contain more than 50 percent of anticipated annual Local Streets and Roads Program Measure B Pass-through revenues. This fund may be a revolving fund and is not subject to an expenditure timeframe.

### Comment: Project Category:

Disabled Services: Services primarily created for mobility for people with disabilities.

Meals on Wheels: Delivery of meals. Senior & Disabled Services: Transportation services for seniors and people with disabilities.

Senior Services: Services primarily created for senior mobility.

Other: Use Other if none of the above apply, and define other by selecting Project Type (Column C) and providing Project Description (Column E).

#### **Cell:** B10

Comment: Project Phase:

Scoping, Feasibility, Planning: Early capital project phases, such as project scoping, feasibility studies, and planning.

Environmental: Preparation of environmental documents, such as those related to the California Environmental Quality Act (CEQA) or the National Environmental Policy Act (NEPA). Right-of-Way: Preparing dcumentation needed to secure or dispose of property rights for project.

Plans, Specifications and Engineering (PS&E): Development of the preliminary engineering and engineering estimates.

Construction: Construction of a new capital project,

Maintenance: Maintenance, repairs, renovation, or upgrade of existing facility or infrastructure.

Operations: Operations such as transit, which may include routine maintenance and procurement, or lease of vehicles/equipment; intelligent transportation systems; or corridor system management. Project Completion/Closeout: Inspection/project acceptance, final invoicing, final reporting, and processes for closing out project.

Other: Use if none of the above apply, and define the project phase by selecting Project Type (Column C) and describe the phase under Project Description (Column E).

### **Cell:** C10

Comment: Project Type:

ADA-mandated Services: Includes mandated public transportation service for people unable to independently use the fixed route bus service.

Capital Expenditure or Purchase: Expenditure or purchase of equipment, vehicles, or facilities. City-based Door-to-Door: Pre-scheduled, accessible, door-to-door service provided by the city. Provides similar level of service to mandated ADA services; designed to fill gaps not met by ADA-mandated providers and/or relieve ADA-mandated providers of some trips. Customer Service and Outreach: Staffing and benefits for customer service as well as costs associated with marketing, education, outreach, and promotional campaigns and programs. Group Trips: One-way passenger trips considered group trips. Includes vehicle operation and contracts. See Individual Demand-response Trips.

Management/Overhead/Staffing: Staffing and benefits to manage programs, projects, and services.

Meal Delivery: Costs associated with vehicle operation, scheduling, dispatching, vehicle maintenance, and supervision for the purpose of delivering meals, whether provided in-house, through contracts, via taxicab, or by grantees. Mobility Management/Travel Training: Covers a wide range of activities, such as travel training, trip planning, and brokerage. Does not include provision of trips. This is considered "non-trip provision". Same Day/Taxi Program: Provides a same day, curb-to-curb service intended for situations when consumers cannot make their trip on a pre-scheduled basis; allows eligible consumers to use taxis at a reduced fare. Scholarship/Subsidized Fare Program: Progarm to subsidize any services for customers who are low-income and can demostrate financel need. Shuttle or Fixed-route Trips: Shuttle or fixed-route bus service, for example. Includes vehicle operation and contracts.

Volunteer Driver Program: Pre-scheduled, door-through-door services that are generally not accessible; rely on volunteers to drive eligible consumers for critical trip needs, such as medical trips. May also have an escort component. Other: Use if none of the above apply. Describe the Type under Project Description (Column E).

### **Cell:** G10

Comment: Project Status: Choose project status on June 30, 2012:

- Planning in FY 11/12,
- Initiated in FY 11/12,
- Continuing or Ongoing, or
- Closed Out in FY 11/12.

#### **Cell:** H10

**Comment:** Quantity Completed includes itemizations such as the total number of one-way passenger trips, consumers trained, meals delivered, tickets purchased, etc.

#### **Cell:** 110 **Comment:** Quantity Type Description:

Consumers Trained: Individuals who received travel trainings related to mobility management/travel training programs.

Contacts Made: Individuals contacted during public outreach events related to mobility management/travel training programs.

Meals Delivered: Number of meals delivered to individuals.

Scholarships Provided: Number of scholarship/scrip vouchers distributed.

Trips: Any type of one-way trip, including taxi, same day service, passenger trips, accessibility trips, etc.

Other: If Trip Type is not applicable to your program, choose Other and provide a description in Column K.

### **Cell:** K10

**Comment:** Completed Quantity funded by MB FY 11-12: This column auto-calculates based on the following.

(Total Measure Dollars Spent X Total Quantity) / Total Project Cost = Total MB-Funded Quantity

Alameda CTC Programs Annual Compliance Report 2011-2012 Reporting Year Measure B Program Table 2: Summary of Expenditures and Accomplishments PARATRANSIT

AGENCY NAME : City of Oakland 20-Feb-13

DATE :

Directions:

Table 3 describes your agency's Measure B financial programming plan over the next four fiscal years. Use the expandable grouped rows (+/- sign on left of cell numbers 157, 306, 456, and 463) to enter detailed project information for the four fund reserve categories below.

1) FY 12-13 Measure B Planned Projects (unreserved funds): Planned projects using unreserved funds during FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement. 2) Measure B Capital Fund Reserve: The Capital Fund Reserve is for large capital project(s) that could otherwise not be funded with a year's worth of Measure B pass-through funds. All programmed funds must be expended by the end of FY 15-16. 3) Measure B Operation Fund Reserve: The Operation Fund is for operational project(s)/program(s). This fund may not contain more than 50 percent of anticipated annual Paratransit Program Measure B Pass-through revenues. 4) Measure B Undesignated Fund Reserve: The Undesignated Fund Reserve is for transportation needs over a fiscal year, such as matching funds for grants, project development work, studies for transportation purposes, or contingency funds. This fund may not contain more than 10 percent of annual pass-through revenues.

# FY 12-13 MEASURE B PLANNED PROJECTS (unreserved funds)

### Directions:

Use the expandable grouped rows (+/- sign on left of cell 157) to enter detailed information for FY 12-13 Planned Projects that are not included in the reserves below. Projects inputted into this section are expected to be implented in FY 12-13 only. You may fill out FY 13-14 through FY 15-16 if data is available for informational purposes, however, it is not a requirement.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                       |                |                                               |  |  | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                               |                | 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                               |                | 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                               |                | 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                               |                | 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                               |                | 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                               |                | 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                               |                |
