

## CALL FOR PROJECTS NOTICE

# Alameda CTC Sustainable Communities Technical Assistance Program (SC-TAP)

The Alameda County Transportation Commission (Alameda CTC) has created an expanded technical assistance program for Alameda County jurisdictions that will provide significant support in the form of on-call consultant expertise for:

- Priority Development Area (PDA) planning and implementation.
- Complete streets policy implementation.
- Bicycle and pedestrian planning and engineering technical support.

Alameda CTC plans, funds and delivers transportation projects and programs within Alameda County and is requesting applications for technical assistance. Jurisdictions may apply for consultant services for specific projects or for consultant in-house support for a fixed amount of time to complete a specific planning, environmental review or project development task. The primary fund source is the federal Surface Transportation Program.

### Eligible applicants:

- Local governments (cities and counties) should partner with transit providers serving the PDA or Growth Opportunity Area for any project that potentially affects transit service or facilities. Partnerships with local, nonprofit groups and community-based organizations are also encouraged.
- Multiple jurisdictions, transit agencies or the Alameda CTC may also submit project applications.

**Applications are due by 5 p.m. on Tuesday, September 17, 2013.**

## CALL FOR PROJECTS SCHEDULE

- Application Workshop at Alameda CTC Offices: July 16, 2013, 1:30 p.m.
- Grant Applications Due: **September 17, 2013 by 5 p.m.**
