Notes:

- (1) All five plans were funded by MTC. Due to the need for extensive community outreach, including identifying the outreach groups, most of the plans went over budget (the overages were absorbed by the consultant).
- (2) The first plan had a lower budget, which was increased after the counties commented to MTC that it was too low for community plans.
- (3) Central and East Oakland was a large area with 14 neighborhoods and six Oakland Council Districts.
- (4) The number of plan updates may be limited by the three-year expenditure period for Lifeline Cycle 3 funds.
