Project Information Meeting: I-680 Sunol Express Lanes Northbound

3-5 p.m. on Tuesday, June 13, 2017

Alameda CTC Offices
1111 Broadway, Suite 800 (8th floor)
Oakland, CA 94607

Project description: Construction of a High Occupancy Vehicle (HOV)/Express Lane on northbound I-680 from the SR 237 interchange in Santa Clara County to north of the SR 84 interchange in Alameda County. The complete project will widen approximately 15 miles of the freeway to accommodate the HOV/Express Lane together with several auxiliary lanes connecting on-ramps and off-ramps. Bridge crossings will be modified and retaining walls constructed to accommodate the widening.

General information:

- Estimated project value: \$125 million
- Advertised by Caltrans in July 2017
- Project goal to be set for Disadvantaged Business Enterprise (DBE) participation

Prime contractors and subcontractors will have the opportunity to network with others, review specialized scopes of work, learn about bid items, and participate in a pre-advertisement Q&A session with project staff.

Join us on June 13 to hear more about this important capital project. Register today at:
