Mission Statement
The mission of the Alameda County Transportation Commission (Alameda CTC) is to plan, fund, and deliver transportation programs and projects that expand access and improve mobility to foster a vibrant and livable Alameda County.

Public Comments
Public comments are limited to 3 minutes. Items not on the agenda are covered during the Public Comment section of the meeting, and items specific to an agenda item are covered during that agenda item discussion. If you wish to make a comment, fill out a speaker card, hand it to the clerk of the Commission, and wait until the chair calls your name. When you are summoned, come to the microphone and give your name and comment.

Recording of Public Meetings
The executive director or designee may designate one or more locations from which members of the public may broadcast, photograph, video record, or tape record open and public meetings without causing a distraction. If the Commission or any committee reasonably finds that noise, illumination, or obstruction of view related to these activities would persistently disrupt the proceedings, these activities must be discontinued or restricted as determined by the Commission or such committee (CA Government Code Sections 54953.5-54953.6).

Reminder
Please turn off your cell phones during the meeting. Please do not wear scented products so individuals with environmental sensitivities may attend the meeting.

Krystle reviewed the schedule and offered help to members to complete the subcommittee volunteer form.

Members were presented with the updated FY 2016-17 PAPCO Meeting Calendar.

3.5. Review the FY 2016-17 PAPCO Work Plan
PAPCO members were presented with the current FY 2016-17 PAPCO Work Plan.

3.6. Review the Current PAPCO Appointments
Sylvia Stadmire stated that there are five vacant PAPCO appointments.

Krystle Pasco presented this item. She covered the CIP process and funding priorities. Krystle reviewed applications and sought PAPCO’s final approval for the paratransit program.

Joyce Jacobson wanted clarification about the population that the LAVTA Para-Taxi Program serves. She asked if consumers interested in
using ADA-mandated Paratransit go through a formal certification process. Staff responded yes. Member Jacobson asked if the taxis have wheelchair access. Naomi Armenta said that LAVTA reports that they do have wheelchair-accessible taxis. However, patrons have found that the vehicles are not always available. Member Jacobson asked if patrons receive $200 a month in reimbursement for using the Para-Taxi program. Member Rousey noted that this is a reimbursement type program and there are limits to how much consumers can request for reimbursement. Member Jacobson asked if this amount means that members can take several trips a week. Staff confirmed this.

Member Jacobson thanked Eden I&R for providing requested data in the packet. She said that there was a basis for their figures in this data. She said that PAPCO is being asked to fund current staff positions and wanted to know how they were funded previously. Naomi responded that AC Transit and CIL previously partnered with Eden I&R using a 5317 federal grant (New Freedom) but this grant is no longer available.

Joyce Jacobson asked if 10% of CIP funding is discretionary, then is paratransit’s discretionary funding 1%. Cathleen Sullivan responded that the paratransit discretionary funding represents 1% of Measure BB and that the paratransit discretionary funding represents 10% of the total paratransit funding. Cathleen said that the paratransit funding was undersubscribed and there is unallocated funding.

Shawn Castello asked if the wheelchair breakdown service was being funded. Naomi responded yes.

Michelle Rousey asked what happens to the unused funding. Naomi said that the unallocated funding is rolled over. Krystle added that this funding can be allocated to programs recommended during the needs assessment implementation discussion that will take place in June.

Herb Hastings asked if LAVTA’s Para-Taxi funds could be used for the Go Dublin program. Naomi responded that if LAVTA wanted to they could submit a discretionary grant application to Alameda CTC.
during a future cycle. Cathleen said that they could also apply with this idea in the program plan process.

Hale Zukas asked, regarding the CIL application, have there been any audits to ensure that the services claimed were actually delivered. Cathleen said that there is no formal auditing process for any of the grants, but past performance information was made available in the packet.

Jonah Markowitz moved to approve this item. Esther Waltz seconded the motion. Discussion took place and Joyce Jacobson requested pulling out Eden I&R to vote on separately. Hale Zukas requested voting on each application individually.

Jonah Markowitz amended the motion to vote on each 2018 CIP Paratransit Program application individually. Michelle Rousey seconded the motion. The motion passed with the following votes:

Joyce Jacobson said that she felt that staff presented this item as a done deal at the beginning of the process. She said she felt “set up” and she was not done reviewing the programs in detail. Hale Zukas said that he and Joyce do not like being rubberstamped.

5. PAPCO Member Reports and Outreach Update

Michelle Rousey stated that the California Olmstead meeting took place last month. She said the group is focused on living independently. She encouraged PAPCO members to attend future meetings.

Shawn Costello had an accident after the January PAPCO meeting and he said the Wheelchair Scooter Breakdown Transportation Service (WSBTS) provided extremely poor service. Shawn would like to make a formal complaint in the current PAPCO meeting, saying that the WSBTS program held his chair hostage over a month and did not deliver his chair to his door.
Jonah Markowitz acknowledged Leslie Gordon passing away.

Sylvia Stadmire delivered SOS Meals with the fire chief of Piedmont and had a very nice time. Sylvia also made a trip with Joyce Jacobson to see the upgraded Community and Senior Center in the City of Emeryville. She also has been attending the Mayor’s budget meetings to see what is available for seniors and youth. Michelle Rousey offered to find lists of people with disabilities to go to the City as advocates when needed.

Sandra Johnson-Simon gave an update on the convention of the United Seniors of Oakland and Alameda County.

Sylvia said that she went to the regional PCC meeting with Sandra and feels AC Transit and BART are going in the right direction in protecting seniors and the disabled.

There was no update.

6.3. Other ADA and Transit Advisory Committees

Naomi Armenta presented this item. She said that veteran and low-income populations are another facet of mobility management.
7.2. **Staff Updates**
Cathleen Sullivan gave an update on the Hospital Discharge Transportation Service (HDTTS) and WSBTS programs. She said the current contractor will no longer be providing these services after the end of this fiscal year. She said that staff is working on alternatives and would give an update during the May meeting. Shawn Costello wanted to ensure that PAPCO has a clear understanding of what services the next contractor can provide.

Naomi Armenta said that 5310 applications were due March 1, 2017. She said that staff would get a federally-funded application list to PAPCO in the next few months.

Joyce Jacobson expressed that she would like PAPCO to look into the reasons volunteer driver programs are successful and to discuss why it failed in North County. She also would like to discuss how 211, AC Transit, BART, and other partner agencies work together on mobility management efforts and how much overlap exists.

RECOMMENDATION: Review FY 2016-17 Gap Grant Cycle 5 Extension Progress Reports

Summary

In April 2017, PAPCO members will receive a progress report on the last year of funding for the Measure B Cycle 5 Gap Grant projects. The Commission approved a second one-year extension to the Cycle 5 Gap Grant program (which is now integrated with the agency’s Comprehensive Investment Plan, a.k.a. CIP) in March 2016. Through this extension, Cycle 5 Gap Grant recipients were allowed to request one additional year of funding for FY 2016-17. The approved funding allocation is summarized in Attachment A. PAPCO members are requested to review the progress report and provide feedback where necessary.

Background

The Measure B Transportation Expenditure Plan (TEP) allocates 10.45 percent of net revenues to the Paratransit program. The Measure BB TEP allocates 10 percent of net revenues. These revenues fund operations for Americans with Disabilities Act (ADA)-mandated services and City-based paratransit programs through Direct Local Distributions (DLD). Measures B and BB also fund a discretionary grant program. PAPCO provides recommendations to the Commission for items related to Paratransit funding, including the discretionary grant program.
The Cycle 5 Gap Grant Program was approved by the Commission in May 2013. It included a total of $2.1 million of Measure B Gap funds for 12 projects for a two-year funding period, July 1 2013 – June 30, 2015. A first extension was approved by the Commission in June 2015. It included a total of $1.1 million of Measure B Gap funds for 11 projects for a one-year funding period, July 1 2015 – June 30, 2016. Additional Cycle 5 Gap funding was available for mid-cycle funding requests for implementation guidelines assistance, capital purchases, and grant matching.

**Gap Grant Cycle 5 FY 2016-17 Extensions**

Due to the recent passage of Measure BB and the countywide needs assessment planned for FY 2016-17, staff recommended, and the Commission approved, extending the Measure B Cycle 5 Gap Grant program for an additional year, through June 30, 2017. In March 2016, Cycle 5 project sponsors were given an opportunity to apply for one-year extensions. Requests were due March 25, 2016 and 11 recipients applied, requesting a total of $1,239,573. Five sponsors requested increases from their FY 2015-16 Cycle 5 funding ranging from 9-42%. The remaining six sponsors requested the same funding amount they received for the first extension of Cycle 5.

Staff developed the recommendation based on the following considerations:

- Demonstrated funding need
- Past performance
- Projected growth and/or changes, and outside factors
- Cycle 5 guidelines and prior PAPCO input

The approved staff recommendation totaled $1,299,000 and is summarized in Attachment A.
**Gap funds for Capital Purchases and Grant Matching**

Staff also recommended that an additional $100,000 of Cycle 5 Gap Grant funding remain available through the FY 2016-17 extension for funding mid-cycle requests for grant matching and capital purchases.

**Staff Recommendation**

Staff recommends that PAPCO review the Cycle 5 Gap Grant progress report and provide feedback where necessary.

**Fiscal Impact:** There is no fiscal impact.

Steven encouraged the Committee to reach out to him if they encounter any bus stops in the service area that are not accessible.

Steven also gave an overview of safety tips including TipNow, an AC Transit smart phone application that allow riders to anonymously send safety and security issues to AC Transit’s Operations Control Center (OCC), which has a direct line to the County Sherriff’s Department for dispatch if necessary. Steven also spoke about CCTV cameras on every bus, and assured the Committee that even if one camera was not working, there are 8 more cameras on both the interior and exterior of the vehicles. Steven mentioned that AC Transit has been granted permission to put cameras on the front of the BRT buses so that if cars are parked in a bus zone, a photo of the license plate can be taken and sent to the Sherriff’s department who will issue a ticket. AC Transit is currently working on getting permission to expand the camera installation to every bus in the fleet.

- Hale Zukas asked when the Committee would be able to tour the Gillig facility. Mallory Nestor-Brush responded that Gillig is currently in the process of moving its plant from Hayward to Livermore, which is scheduled for May. Staff will explore the possibility of a tour after Gillig has relocated.
- Saleem Gilmore reported that he and his wife adopted a baby on November 30th.

13. Staff Communications and Announcements
Mallory Nestor-Brush reminded the Committee that AB1234 Ethics Training, which occurs every two years, is approaching. To receive a completion certificate, the Committee can attend the May 2nd Joint SRAC, Bart Accessibility Task Force (BATF) and AAC meeting in person, or members can take the class on-line. If they wish to take the class on line they must complete the course by May 2, 2017 and copies of the certificate must be sent to Tammy Kyllo by May 5, 2017. Tammy will send a link to the on-line class to the Committee.

14. Set Next Agenda & Meeting Date
The next AAC Meeting will be held Tuesday, April 11, 2017 at the East Bay Paratransit Office, 1750 Broadway, Oakland, in the Community Room. Agenda items will include an Overview of Interns at AC Transit and Review of Quarterly ADA Complaints.

15. Adjournment
The meeting adjourned at 2:30 p.m.
Shared Mobility and the Transformation of Public Transit

Technology is transforming transportation. The ability to conveniently request, track, and pay for trips via mobile devices is changing the way people get around and interact with cities. This report examines the relationship of public transportation, including para-transit and demand-responsive services, to shared modes, including bikesharing, car-sharing, microtransit, and ridesourcing services provided by companies such as Uber and Lyft. The research included participation by seven cities: Austin, TX; Boston, MA; Chicago, IL; Los Angeles and San Francisco, CA; Seattle, WA; and Washington, DC.

Some transportation observers have predicted that, by creating a robust network of mobility options, these new modes will help reduce car ownership and increase use of public transit, which will continue to function as the backbone of an integrated, multimodal transportation system.

The objective of TCRP Project J-11, Task 21 was to examine these issues and explore opportunities and challenges for public transportation as they relate to technology-enabled mobility services, including suggesting ways that transit professionals can learn from, build upon, and interface with these new modes.

To accomplish this task, the study draws on several sources of information, including:

- In-depth interviews with transportation officials;
- A survey of shared mobility users;
- Analysis of transit and ridesourcing capacity, demand, and comparative travel times;
- An assessment of practices and regulations relating to paratransit provision; and
- A compilation of current business models and public-private partnerships that build on new technologies from the emerging shared mobility sector.

Together, these elements provide a snapshot of a rapidly widening mobility ecosystem at an early moment in its evolution, and form the basis for a number of recommendations for balancing the benefits of innovation with public agencies’ responsibility to the common good.

Key Findings

- Among survey respondents, greater use of shared modes is associated with greater likelihood to use transit frequently, own fewer cars, and have reduced transportation spending. Supersharers (people who routinely use several shared modes, such as bikesharing, carsharing, and ridesourcing) report the greatest transportation savings and own half as many cars as people who use transit alone.
• Shared modes largely complement public transit, enhancing urban mobility. On some routes and at certain times of day, however, shared modes may compete with transit. Ridesourcing services are most frequently used for social trips between 10:00 p.m. and 4:00 a.m., times when transit runs infrequently or is unavailable. Bikesharing plays a peak-hour role in augmenting transit systems, while carsharing is mostly used off peak. The car-based shared modes likely substitute more for taxi or automobile trips than for transit trips. Transit is most competitive when it travels in its own right of way and provides frequent service.

• Because shared modes are expected to continue growing in significance, public entities are encouraged to identify opportunities to engage with them to ensure that benefits are widely and equitably shared. Transit agencies can improve urban mobility for the entire spectrum of users through collaboration and public-private partnerships, including greater integration of service, information, and payment methods.

• Public-sector agencies and private mobility operators are eager to collaborate to improve paratransit using emerging approaches and technology. Although regulatory and institutional hurdles complicate partnerships in this area, technology and business models from the shared mobility industry can help lower costs, increase service availability, and improve rider experience.

• Emerging business models include new forms of public-private partnership for provision of mobility and related information services. Public entities, including transit agencies and local transportation departments, already are engaging with private operators and using new technologies from the shared mobility world. Public agencies can look to many examples for insight. Key areas of collaboration include cross-modal trip planning, reservations, and payment application (app) integration; microtransit/dynamic demand response; private access to public rights-of-way; and service links and hand-offs.

Conclusions

TCRP Research Report 188 concludes by presenting actions that transit agencies, transportation departments, and other local and regional agencies can take to promote useful cooperation between public and private mobility providers. It also suggests regulatory enhancements, institutional realignments, and forms of public-private engagement that would allow innovation to flourish while providing mobility as safely, broadly, and equitably as possible.
