

I-680 Express Lanes from SR 84 to Alcosta Boulevard

Key View Locations: Before and After

At each of the following key locations, the "After" photo shows placement of gantry signage.

1 Koopman Road Looking South Toward I-680

2 Happy Valley Road Looking West Toward I-680

3 West Lagoon Road Looking North Toward I-680

4 Centennial Trail Looking West Toward I-680

5 Canterbury Lane Looking West Toward I-680

6 Millbrook Avenue looking east toward I-680

Visual Impacts

During the detailed design phase, adjustments will be made to minimize visual impacts to residents along the project corridor. Some mitigation measures currently under consideration include:

- Minimize the removal of ground cover, shrubs and mature trees
- Replace removed shrubs and trees at a minimum 1:1 ratio
- Hydroseed disturbed areas with erosion control grasses and/or locally native grasses
- Provide aesthetic treatments for concrete safety barriers and retaining walls, plant vines along sound walls
- Adjust locations of project features where feasible, to minimize visual impacts to residents along the project corridor
