Date of Meeting: June 8, 2020 at 1:00pm PST

Form of communication: Meeting with the Audit Committee

Purpose of meeting: Cover discussions related to fraud considerations as required by Statement of Auditing Standards (SAS) Statement 99 and 114.

The main purpose of this discussion is to open up two-way communication between the auditors and Audit Committee.

SAS 114 – Audit Timing, Scope and Management Representation

Audit Timing

Interim phase fieldwork is scheduled for the week of June 8, 2020 and final phase fieldwork is scheduled for the weeks of August 31, 2020 and September 7, 2020. The finalized drafts are scheduled to be presented at the October 22, 2020 Audit Committee Meeting, the November 9, 2020 Finance and Administration Committee Meeting and the December 3, 2020 Alameda CTC Commission Meeting.

Audit Scope

In terms of audit scope, we begin with

- Performing a risk assessment brainstorming of Alameda CTC
- Then create an audit plan tailored to Alameda CTC and sector
- We review and document our understanding of Alameda CTC’s internal controls and segregation of duties. Here we have a focused attention to conflict of duties – employees with access to assets and related records used to control and account for those assets, and we test mitigating controls.
- We determine the most effective way to test significant audit areas and balances, usually by
  - Testing controls over key transactions cycles via sampling (such as disbursements, payroll and journal entries)
  - Testing information system application controls
  - Sending 3rd party confirmations when they can be effective
  - Testing accruals at year end
  - Analytical Review
  - Projections and forecasts
  - Testing bank reconciliations
  - Capital asset transactions
  - Long-term debt
  - Reviewing actuarial studies utilized for Retirement Plans and OPEB
- Perform compliance tests
  - Certain Government code provisions applicable to cash and investments
  - Local policy compliance, typically:
    - Investment
    - Purchasing
  - Grants (Single Audits)

- Financial Statement preparation assistance
  - Staff has requested that we provide assistance with the preparation of financial statements and disclosures.
  - We are satisfied staff have the capability to perform this task themselves.

**Management Representations**

We will request representations from management that data and assertions provided are complete and accurate. We rely primarily on our audit verification tests and procedures, however, management assertions and judgments unavoidably affect financial data.
SAS 99 – Fraud Consideration

Fraud Considerations: Statement of Audit Standard (SAS) #99, Consideration of Fraud in a Financial Statement Audit. This Standard came out of the fall out of Enron/ WorldCom and other private sector frauds.

1. “Fraud” is defined as an intentional act that results in a material misstatement in financial statements that are subject to audit. In this case, fraud includes two concepts:

   a. Fraudulent financial reporting:
      i. Misstatement including misapplication of accounting principles, omission of data or disclosures, fictitious transactions or sham transactions
      ii. Concealment

   b. Misappropriations of assets:
      i. Theft
      ii. Concealment
      iii. Conversion

2. SAS 99 requires an inquiry of client

   a. Client officials to include:
      i. Audit Committee Members
      ii. Finance Staff
      iii. Others outside Finance (optional)

   b. Areas to be discussed:
      i. Is management aware of known instances of fraud?
      ii. Are there areas you believe are “Susceptible to Fraud”?
      iii. Any known related party transactions?
      iv. Do you feel all Alameda CTC employees are honest and have integrity?

   c. Areas automatically deemed susceptible to fraud:
      i. Improper revenue recognition
      ii. Management override of Internal Control

3. SAS 99 also requires that we address our client’s “Fraud Risk Assessment and Monitoring Programs” (AKA internal controls plus)
   a. Prevention techniques
   b. Deterrence techniques
   c. Detection techniques
