Vehicle Miles Traveled per Employee
North Planning Area

North Planning Area Average (Target -15%): 14.5 (12.3)
Alameda County Average (Target -15%): 15.9 (13.5)

2020 Vehicle Miles
Traveled per Employee
by TAZ

Data Source: Alameda Countywide Travel Model, Plan Bay Area 2040 version, May 2019
Vehicle miles traveled (VMT) = home-based VMT, work, school, shopping/grocery, social/leisure, transportation analysis zones (TAZ) containing residence site
VMT also includes estimates of non-home miles generated by residents at the non-residential end of the home-based trip (e.g., lakeshore transit analysis).
VMT per capita = home-based VMT at residence TAZ divided by total population in TAZ
VMT includes all travel within Alameda County Area plus San Joaquin County plus estimates of travel distances beyond the 19 county model area.
TAZs with zero values (white) did not have population in the 2020 model.
