## INDEPENDENT AUDITOR'S REPORT

The Governing Board  
Sunol Smart Carpool Lane Joint Powers Authority  
Oakland, California

### ***Report on Financial Statements***

We have audited the accompanying financial statements of the Sunol Smart Carpool Lane Joint Powers Authority (Authority) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the Table of Contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Authority as of June 30, 2020 and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matters***

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

**JUNE 30, 2020**

---

Management has prepared the following discussion and analysis of the Sunol Smart Carpool Lane Joint Powers Authority (the Authority) financial performance, which provides an overview of its financial activities for the fiscal year ended June 30, 2020. Management encourages readers to consider the information presented here in conjunction with the accompanying financial statements and related notes.

### Financial Highlights

- Total net position increased by \$0.11 million or 1.6 percent from \$6.72 million to \$6.83 million as of June 30, 2020, compared to June 30, 2019. This slight increase is due to toll revenues outpacing operations and maintenance expenses. Capital assets, net of accumulated depreciation, comprised \$0.73 million or 10.7 percent of the total net position at June 30, 2020.
- For the year ended June 30, 2020, cash and cash equivalents increased by \$0.33 million or 5.3 percent from \$6.24 million to \$6.57 million compared to June 30, 2019. This increase is mostly related to toll revenue collections, which were slightly more than operations and maintenance expenses paid during the fiscal year, and investment income.
- Operating revenue was \$1.87 million during fiscal year 2020, a decrease of \$0.98 million or 34.3 percent from fiscal year 2019 mainly attributed to the suspension of revenue collections on the express lane from March 20 through May 31, 2020 due to the COVID-19 pandemic shelter-in-place order and resulting reduction in traffic on Interstate 680 (I-680).
- The Authority's total operating expenses including depreciation were \$1.88 million during fiscal year 2020, an increase of \$0.19 million or 11.2 percent over fiscal year 2019. This increase is attributed to slight increases in various items that constitute operations and maintenance expense. Operating expenses of \$1.88 million for fiscal year 2020 were primarily comprised of program operations and maintenance costs.

### Overview of the Basic Financial Statements

The basic financial statements of the Authority are presented as a single enterprise fund, which reports all activities using the accrual basis of accounting and the economic resources measurement focus. With this basis of accounting, revenues are recorded when earned and expenses are recorded when the related liabilities are incurred. The enterprise fund is used to account for the collection of toll revenues and payment of the Authority's expenses. The financial statements provide both long-term and short-term financial information and information about cash flows. The Authority's financial statements are presented as follows:

- Statement of Net Position;
- Statement of Revenues, Expenses and Changes in Net Position;
- Statement of Cash Flows; and
- Notes to Basic Financial Statements.

# SUNOL SMART CARPOOL LANE JOINT POWERS AUTHORITY

## MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2020

### Financial Analysis

The following table presents the Authority's net position as of June 30, 2020, and June 30, 2019:

	June 30, 2020	June 30, 2019
Current assets	\$ 6,610,629	\$ 6,347,524
Capital assets, net	729,477	855,872
Total assets	7,340,106	7,203,396
Total liabilities	(513,468)	(483,525)
Net position	\$ 6,826,638	\$ 6,719,871

The following table presents the Authority's change in net position for the fiscal year ended June 30, 2020, and the period ended June 30, 2019:

	June 30, 2020	June 30, 2019
Operating revenues	\$ 1,870,119	\$ 2,846,996
Operating expenses	1,883,186	1,694,086
Operating income	(13,067)	1,152,910
Nonoperating revenue (expense)	119,834	(367,346)
Increase (decrease) in net position	106,767	785,564
Net position, beginning of period	6,719,871	5,934,307
Net position, end of period	\$ 6,826,638	\$ 6,719,871

While Alameda County Transportation Commission (Alameda CTC) continues as the managing agency of the Sunol Smart Carpool Lane, it does not subsidize administrative support costs on behalf of the Authority. Accordingly, all Sunol Smart Carpool Lane costs have been included in the Statement of Revenues, Expenses, and Changes in Net Position (see Note 3 to the financial statements for a more detailed explanation).

The Authority began operating a toll lane on the Sunol Grade segment of southbound I-680 in Alameda and Santa Clara counties on September 20, 2010. Annual toll lane usage has almost doubled, going from 465,688 trips during fiscal year 2012, the lane's first full fiscal year of operations, to 907,972 trips in fiscal year 2019; however, the number of trips are lower in fiscal year 2020, down to 615,054 trips, related to suspension of toll collections in fiscal year 2020 due to the COVID-19 pandemic shelter-in-place order.

## SUNOL SMART CARPOOL LANE JOINT POWERS AUTHORITY

### MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2020

The following chart demonstrates the trips that have been taken in the toll lane by fiscal year since inception in September 2010.

During the fiscal year ended June 30, 2020, cash increased by \$333.8 thousand or 5.3 percent. Revenues for the period, including investment and other income, in the amount of \$1,990.0 thousand plus the change in liabilities of \$29.9 thousand, receivables of \$62.5 thousand and prepaid items of \$8.2 thousand were offset by \$1,756.8 thousand of operations and maintenance expenses which resulted in the change in the cash balance.

#### Capital Assets

The following table presents the Authority's capital asset activity from June 30, 2019 to June 30, 2020:

	June 30, 2019	Additions	Deletions	June 30, 2020
Toll revenue equipment	\$ 1,925,442	\$ -	\$ -	\$ 1,925,442
Accumulated depreciation	(1,069,570)	(126,395)	-	(1,195,965)
Net book value	<u>\$ 855,872</u>	<u>\$ (126,395)</u>	<u>\$ -</u>	<u>\$ 729,477</u>

Additional information regarding the Authority's capital assets can be found in Note 5 on page 15 of this report.

# SUNOL SMART CARPOOL LANE JOINT POWERS AUTHORITY

## MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2020

---

### Comparison of Budget to Actual

Prior to each fiscal year, the Authority adopts a budget for the coming year. The adopted operating revenue budget for fiscal year 2020 was \$2.70 million. Actual operating revenues were \$1.87 million, which was \$0.83 million or 30.7 percent less than budget due to suspension of toll collections on the express lane beginning in late March through May of fiscal year 2020 due to the COVID-19 pandemic and resulting shelter-in-place order.

The adopted operating expense budget was \$2.50 million; Actual operating expenses were \$1.88 million, which was \$0.61 million or 24.6 percent less than budget due to cost saving in a few different items that go into operating expense.

The adopted investment income budget for fiscal year 2020 was \$0.05 million; Actual investment income was \$0.12 million or 139.7 percent more than budget related to a conservative approach when budgeting due to an uncertain interest rate market.

There was no budget adopted for capital projects and no capital expenses were incurred during the fiscal year. However, there is a related capital project administered by Alameda CTC which encompasses an automated toll violation enforcement system and construction for continuous access in the southbound express lane in addition to construction for a full express lane in the northbound direction (see 'Other Significant Matters' section below).

### Other Significant Matters

Alameda CTC, in cooperation with the California Department of Transportation and the Federal Highway Administration, will construct a High Occupancy Vehicle (HOV)/Express Lane on northbound I-680 from the State Route (SR) 237 interchange in Santa Clara County to north of the SR 84 interchange in Alameda County. The complete project will widen about fifteen (15) miles of the freeway to accommodate the HOV/Express Lane along with several auxiliary lanes connecting on-ramps and off-ramps. Bridge crossings will be modified, and retaining walls will be constructed to accommodate the widening. The project also will include an upgrade to the southbound express lane configuration from controlled access to near continuous access. The project approval and environmental phase of the project was completed in the summer of 2015. To provide operational benefits and expedite congestion relief in the corridor, the design efforts for an initial nine-mile segment from Auto Mall Parkway to State Route (SR) 84 began in August 2015. This first phase of the project was advertised in September 2017, and construction began in March 2018. This construction resulted in slightly lower than budgeted revenues for the south bound express lane, as some drivers have been hesitant to drive in the left lane so close to construction activity in the north bound lanes.

The Authority was originally formed to plan, design, construct, and administer the operations of a value pricing high-occupancy vehicle program on the Sunol Grade segment of I-680 between the interchange of Alcosta Boulevard in the City of Dublin in Alameda County and SR 237 (Calaveras Boulevard) in the City of Milpitas in Santa Clara County. In addition to managing the operations of the existing toll lane, the Authority provides oversight for the planning, design and construction of the northbound project and will be responsible for the operations and maintenance of the express lane once it is put into service, which is currently projected for 2021.

# **SUNOL SMART CARPOOL LANE JOINT POWERS AUTHORITY**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**JUNE 30, 2020**

---

In early 2020, the Authority was affected by a global pandemic, COVID-19, which resulted in six Bay Area Counties, including Alameda County, announcing a “shelter-in-place” order on March 16 through April 7 which allowed only essential travel. This order was later revised to extend through May 3, then again through May 31, with some easing of the restrictions. These orders reduced traffic significantly on I-680, and revenue operations of the lane were suspended on March 20 through May 31 in concert with all Bay Area regional express lane operators. As many Bay Area residents returned to work, Bay Area freeway traffic increases prompted all Bay Area Express Lanes to reinstate revenue operations on June 1. I-680 express lane revenues were already slightly lower than projected in fiscal year 2019-20 before the pandemic hit due to construction on the north bound lanes, as mentioned above, but with the pandemic and resulting suspension of revenue operations for almost 2.5 months, revenues plummeted 34.3 percent from the prior fiscal year overall. With that said, revenues were substantial enough during the fiscal year to cover all operations and maintenance costs, and the lanes were opened for revenue operations before the start of fiscal year 2020-21.

### **Request for Information**

This financial report is designed to provide a general overview of the Authority's finances for all those interested in the finances of the Sunol Smart Carpool Lane JPA. Questions concerning the information provided in this report or requests for additional financial information should be addressed to the Finance Department at 1111 Broadway, Suite 800, Oakland, CA 94607.

# SUNOL SMART CARPOOL LANE JOINT POWERS AUTHORITY

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2020

---

### **NOTE 1 – REPORTING ENTITY**

The Sunol Smart Carpool Lane Joint Powers Authority (the Authority) is a joint powers authority, organized in February 2006 pursuant to a joint powers agreement (Agreement) among the Alameda County Congestion Management Agency (ACCMA), the Alameda County Transportation Improvement Authority (ACTIA), and the Santa Clara Valley Transportation Authority. As of July 1, 2010, ACCMA and ACTIA have been succeeded by Alameda County Transportation Commission (Alameda CTC) which has all of the powers and responsibilities of the former agencies. The Agreement was entered into pursuant to the Government Code of the State of California, commencing with Section 6500. The Authority was formed to plan, design, construct, and administer the operations of a value pricing high-occupancy vehicle program on the Sunol Grade segment of Interstate 680 in Alameda and Santa Clara Counties. Members of the Authority's Board of Directors are elected officials representing Alameda and Santa Clara Counties. The Interstate 680 (I-680) Express Lane is located along a 14-mile stretch of I-680 in the southbound direction from State Route 84 south of Pleasanton to State Route 237 in Milpitas, California, and has been in operation since September 20, 2010.

### **NOTE 2 – MANAGING AGENCY**

Alameda CTC is the managing agency of the Authority. From inception of the Authority in 2006, Alameda CTC provided all administrative support including office space, staff time, accounting, and insurance. While Alameda CTC continues as the managing agency, it ceased funding these administrative support costs on behalf of the Authority as of July 1, 2012. Accordingly, all of the Authority's operating costs are included in the Statement of Revenues, Expenses, and Changes in Net Position.

### **NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES**

#### **Basis of Presentation and Accounting**

All activities of the Authority are reported using the economic resources measurement focus and the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, as applicable to governmental agencies. With this measurement focus, all assets and liabilities associated with operations are included on the Statement of Net Position. Revenues are reported when earned and expenses are reported when the related liabilities are incurred.

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the Authority's principal ongoing operations. The principal operating revenue of the Authority is the collection of toll revenue.

Operating expenses of the Authority are made up of operations and maintenance costs and depreciation. Since inception of the Authority, Alameda CTC as the managing agency provided administrative support and subsidized operations and maintenance costs of the Sunol Smart Carpool Lane through its I-680 Southbound HOT Lane Project. As of July 1, 2012, the managing agency no longer funded the Authority's administrative support costs. Accordingly, these costs as well as all other operations and maintenance costs incurred by the Authority have been included in the Statement of Revenues, Expenses, and Changes in Net Position since July 1, 2012.

# SUNOL SMART CARPOOL LANE JOINT POWERS AUTHORITY

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2020

### NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Authority adheres to accounting principles issued by the Governmental Accounting Standards Board (GASB).

#### Revenue Recognition

The Authority recognizes toll revenue at the time the toll lane is used, net of funds for invalid, equipment malfunctions, and other various issues.

#### Net Position

Net position is reported in the following categories:

- Net Investment in capital assets – This category includes all capital assets net of accumulated depreciation. The Authority has no capital related debt.
- Unrestricted – This category represents net position of the Authority that is not restricted for any project or other purpose.

State law requires net toll revenues to be used only for construction of high-occupancy vehicle facilities and the improvement of transit services within the corridor from which the revenue was generated. The Board designated \$1,500,000 of net position for ongoing maintenance cost such as the replacement of toll equipment (including hardware and software) and roadway rehabilitation. In addition, the Board designated another \$2,500,000 of net position as an operational risk reserve designed to ensure the financial stability of the agency. The Board has set a target of \$20 million to be accumulated in this operational risk reserve, depending on available net operating surplus, which would be eligible to be spent on a catastrophic type failure, such as an overall failure of toll system equipment.

#### Cash Equivalent

The Authority considers all highly liquid investments to be cash equivalents. As such, the Authority's investment in the Local Agency Investment Fund (LAIF) is considered to be a cash equivalent because withdrawals from the LAIF pool are available on an amortized cost basis which is substantially the same as the fair value reported in the financial statements.

#### Estimates

The preparation of basic financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and related disclosures. Accordingly, actual results may differ from those estimates.

### NOTE 4 – CASH AND INVESTMENTS

The Authority had \$1,347,782 cash in the bank and \$5,226,517 invested with the Local Agency Investment Fund (LAIF) for total cash and investments of \$6,574,299 as of June 30, 2020. The Authority's investment policy follows the investment policy of its managing agency, Alameda CTC.

# SUNOL SMART CARPOOL LANE JOINT POWERS AUTHORITY

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2020

### NOTE 4 – CASH AND INVESTMENTS (Continued)

Cash held in banks is entirely collateralized by the bank holding the deposit. California law requires banks and savings and loan institutions to pledge government securities with a market value of 110 percent of the deposit or first trust deed mortgage notes with a value of 150 percent of the deposit as collateral for all municipal deposits (investment pool deposits). This collateral remains with the institution, but is considered to be held in the name of the investment pool and places the Authority, which is a participant in the investment pool, ahead of general creditors of the institution.

LAIF is a State of California external investment pool which is regulated by California Government Code §16429 under the oversight of the Treasurer of the State of California. The pool is not registered with the Securities and Exchange Commission. The fair value of the Authority's investments in the pool is reported in the accompanying financial statement at amounts based upon the Authority's pro-rata share of the fair value provided by LAIF for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on accounting records maintained by LAIF, which is recorded on the amortized cost basis. LAIF transactions are restricted to 15 transactions per month with a minimum transaction amount of \$5,000 and increments of a thousand dollars thereafter. LAIF is not rated.

Custodial credit risk is the risk that in the event a financial institution or counterparty fails, the Authority would not be able to recover the value of its deposits and investments. At June 30, 2020, the Federal Depository Insurance Corporation insured the Authority's cash deposits up to \$250,000 and the financial institution's trust department collateralized the remainder of the Authority's deposits in the Authority's name.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Authority would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority's investments are not exposed to custodial credit risk.

Fair Value Measurements – The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. Investments in the LAIF are uncategorized because deposits to and from the investment pool are made on the basis of \$1 and not at fair value.

### NOTE 5 – CAPITAL ASSETS

Equipment costing \$5,000 or more and having a useful life of more than one year is reported in the Statement of Net Position at historical cost. Capital assets are depreciated using the straight-line method over estimated useful lives of five to twenty years.

Capital asset balances at June 30, 2020, and activity for the year then ended, are as follows:

	June 30, 2019	Additions	June 30, 2020
Toll revenue equipment	\$ 1,925,442	\$ -	\$ 1,925,442
Accumulated depreciation	(1,069,570)	(126,395)	(1,195,965)
Net book value	<u>\$ 855,872</u>	<u>\$ (126,395)</u>	<u>\$ 729,477</u>

## SUNOL SMART CARPOOL LANE JOINT POWERS AUTHORITY

### NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2020

#### NOTE 6 – RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The following is a list of insurance covering operations:

Type of Coverage	Deductible	Coverage up to
General liability	\$ 5,000	\$ 10,000,000 per occurrence
Employee and public officials errors and omissions	5,000	10,000,000 per occurrence
Public officials personal liability	500	500,000 per occurrence
Employment practices liability	5,000	10,000,000 per occurrence
Employee benefits liability	5,000	10,000,000 per occurrence
Employee and public officials dishonesty	-	1,000,000 per occurrence
Auto liability	5,000	10,000,000 per occurrence
Uninsured/underinsured motorists	-	1,000,000 per accident
Property coverage	5,000	1,000,000,000 per occurrence
Boiler and machinery coverage	5,000	100,000,000 per occurrence
Excess liability	-	5,000,000 per occurrence/other aggregate

No claims exceeded coverage limits over the past three years.
