

Oakland Alameda Access Project

MARCH 2021

PROJECT OVERVIEW

The Alameda County Transportation Commission (Alameda CTC) is currently working to identify potential freeway access and arterial roadway improvements as part of the Oakland Alameda Access Project, formerly the Broadway-Jackson Interchange Improvements Project. Today, motorists traveling between the I-880 and I-980 freeways and the Webster and Posey Tubes, which connect the cities of Oakland and Alameda, must travel along congested city streets causing heavy bottlenecks, long delays and potential vehicle-pedestrian-bicycle conflicts. A proposed alternative that best meets the project's purpose and need has been selected. This alternative will be documented in the Final Environmental Document and will be carried into the final design phase.

PROJECT NEED

- Access between the freeway and the roadway networks between I-880 and the Tubes is limited and indirect and access to/from the cities of Oakland and Alameda is circuitous
- Oakland Chinatown has a high volume of pedestrian activity and experiences substantial vehicle-pedestrian conflicts
- The I-880 viaduct limits bicycle and pedestrian connectivity between downtown Oakland and the Jack London District

PROJECT BENEFITS

- Improves multimodal safety and reduces conflicts between regional and local traffic
- Enhances bicycle and pedestrian accessibility and connectivity within the project study area
- Improves mobility and accessibility between I-880, SR-260, City of Oakland downtown neighborhoods and the City of Alameda
- Reduces freeway-bound regional traffic and congestion on local roadways and in area neighborhoods

STATUS

Implementing Agency: Alameda CTC

Current Phase: Preliminary Engineering and Environmental Document (EIR/Complex EA)

Environmental Document: Environmental Impact Report/ Environmental Assessment

- Project Study Report-Project Development Support (PSR-PDS) approved in spring 2011
- Public scoping meeting held on September 28, 2017
- Reached consensus on one alternative in late 2019
- Draft Environmental Document/Draft Project Report (DED/DPR) completed on September 29, 2020
- Virtual public hearing held on October 20, 2020
- Public Comment Period, which began September 29, 2020, ended on November 30, 2020
- Final Project Approval and Environmental Document (PA&ED) in fall 2021

PARTNERS AND STAKEHOLDERS
