TRANSPORTATION COMMISSION

Project Delivery Manager

(Principal
Transportation
Engineer)

HR21-02b

DEADLINE TO APPLY

This recruitment will remain open until filled.
Candidates are encouraged to apply early in
the process for optimal consideration.

The first review of resumes has been extended to
September 7, 2021.

THIS PAGE IS INTENTIONALLY LEFT BLANK

THE OPPORTUNITY

Under the general direction of the Deputy Executive Director of Projects, the Project Delivery Manager will:

- Plan, organize, manage, and provide oversight of assigned staff and consultants in the delivery of capital projects;
- Manage capital projects, assist with managing the overall project delivery program, and coordinate activities with other Alameda CTC staff, local agencies, and regional transportation and state agencies; manage assigned activities in coordination with other internal agency departments and outside agencies;
- Project manage multifaceted and multi-disciplinary capital projects, programs, studies, and initiatives;
- Provide complex assistance to the executive team in various areas of expertise; and
- Perform related work as required.

THE AREA

Alameda County is the geographic center of the San Francisco Bay Area, located east of the San Francisco Bay, extending to Livermore in the East and from Albany in the North to Fremont in the South. Alameda County encompasses 813 square miles of land and has a population in excess of 1.6 million, making it the second most populated county in the Bay Area.

THE ORGANIZATION

Alameda County Transportation Commission (Alameda CTC) staff is a diverse and collaborative team of talented professionals who are passionate about improving mobility and access for Alameda County residents, businesses, and visitors. Together, we deliver excellence.

Alameda CTC is a joint powers authority that plans, funds and delivers transportation programs and projects that expand access and improve mobility in Alameda County. Alameda CTC was created by the merger of the Alameda County Congestion Management Agency (ACMA) and the Alameda County Transportation Improvement Authority (ACTIA) in order to allow for better coordination of transportation planning and programming within the County, as well as position Alameda County jurisdictions and transit agencies to better compete for limited state and federal transportation dollars.

THE IDEAL CANDIDATE WILL HAVE:

- A broad depth of experience with a variety of transportation project types and thorough knowledge of the required tasks and deliverables associated with each project phase; specifically, knowledge of project delivery processes for the California Department of Transportation (Caltrans) and local agencies and project delivery issues; knowledge of the environmental process, design standards and practices; cost estimating; and construction management principles and practices.
- Knowledge of principles and practices of employee supervision, including work planning, assignments, review and evaluation, and the training of staff in work procedures.
- Knowledge of advanced principles and practices of civil engineering as applied to the design, cost estimating, construction, installation, and inspection of a wide variety of traffic and transportation systems.
- Ability to communicate high-level engineering concepts regarding transportation projects and issues, and effectively communicate, both orally and in writing, to elected officials and members of the public.
- Ability to recommend and implement goals, objectives, and practices for providing effective transportation engineering programs and projects.
- Ability to prepare and present clear, concise, and logical written and oral reports, correspondence, policies, procedures, and other written materials.
- Ability to use tact, initiative, prudence, and independent judgment within general policy and legal guidelines in politically sensitive situations.

EXAMPLE OF ESSENTIAL RESPONSIBILITIES:

- Assume full management responsibility for the Alameda CTC's sponsored projects in the capital program and assist with managing the consultant team responsible for portions of the overall program.
- Develop and implement goals, objectives, policies, procedures, and work standards for the assigned functions.
- Select, train, motivate, and direct assigned staff; evaluate and review work for acceptability and conformance with standards; work with staff on performance issues; respond to staff questions and concerns.
- Manage and direct agency staff and consultants providing program/project management services, including development of delivery strategies, contract management activities, and review of deliverables.
- Contribute to the overall quality of the assigned areas of responsibility by developing, reviewing, and implementing policies and procedures to meet legal requirements and Alameda CTC's needs; continuously monitor and evaluate the efficiency and effectiveness of service delivery methods and procedures; assess and monitor distribution of work, support systems, and internal reporting relationships; identify and recommend opportunities for improvement; direct the implementation of changes.
- Manage large, complex, and multi-disciplinary projects, programs, studies, and initiatives. Plan, direct, and oversee day-to-day work of staff and consultants, establish performance metrics and collect and analyze data, recommend and implement methods and procedures for meeting operating objectives while ensuring that

construction, financial, regulatory, and legal requirements are met.

- Develop and manage project budgets for federal, state, regional, and local funding within the authority of the agency; monitor cash flow and expenditure schedules; prepare project budgets and accruals and perform variance analyses; provide guidance and oversight to local agencies on the delivery of state, regional, and federally funded projects by ensuring project completion and adherence to funding requirements and serving as a liaison between Caltrans, local agencies and funding agencies to resolve project delivery issues.
- Oversee the development of consultant requests for proposals and/or qualifications for professional services; evaluate proposals and recommend contract award; negotiate with selected consultants; develop and review contract terms and amendments; ensure contract compliance with Alameda CTC standards and specifications and time and budget estimates; review and amend contract scope and deliverables, as needed; analyze and resolve complex problems as they arise.
- Provide highly complex staff assistance to the Deputy Executive Director of Projects, including various management and information updates, and report on special programs and projects as assigned by the Deputy Executive Director of Projects.
- Monitor changes in laws, regulations, and technology that may affect Alameda CTC and assigned programs, projects, and activities; implement policy and procedural changes as required.

QUALIFICATIONS

- Equivalent to graduation from an accredited four-year college or university with major coursework in civil or transportation engineering or a related engineering field.
- Seven (7) years of increasingly responsible experience in civil, traffic, and/or transportation engineering and related activities with emphasis on administering federal, state, regional, and/or local transportation programs.
- Coordination experience with Caltrans District 4 on project delivery matters strongly desired; Familiarity with Caltrans' capital delivery process for State Highway System projects is essential.
- Two (2) years of lead or supervisory experience.
- Possess and maintain a valid certificate or registration as a Professional Civil Engineer or Transportation Engineer in the State of California.

COMPENSATION AND BENEFITS

The annual salary range is \$152,329 to \$198,028 depending on qualifications and experience.

Alameda County Transportation Commission offers a generous benefits package:

- Cafeteria Plan which employees can use to choose the following:
 - Health, Dental, and Vision Insurance; and
 - Life, AD&D, and Long-term and Short-Term Disability Insurance.
- Retirement Program in the California Public Employee Retirement System (CalPERS):
 - Classic Member (member of CalPERS prior to January 1, 2013) – 2.5% at age 55 (employee contributes 3%)
 - New Member (under new PEPRA laws) – 2% at age 62 (employee contributes 6.75%, this amount is subject to change at the beginning of each fiscal year per CalPERS calculations)
- Vacation Leave: Starts at 10 days per year and increases based on years of service.
- Sick Leave: Accrued at one (1) day per month.
- Holidays: 11 paid holidays, plus two (2) floating holidays, per year.
- Other benefits, including transit subsidy, flexible spending accounts, tuition assistance, etc.
