

Alameda County Student Transit Pass Program

PROGRAM NEED

The Student Transit Pass Pilot (STPP) Program expands transportation options and makes it easier for Alameda County's middle and high school students to travel to and from school and school-related programs, jobs and other activities. The initial three-year, \$15 million pilot program was identified in the voter-approved 2014 Transportation Expenditure Plan funded by Measure BB and designed to account for geographic differences within the County.

Delivering on our promise to Alameda County voters, the program goals are to:

- Reduce barriers to transportation access to and from schools.
- Improve transportation options for Alameda County's middle and high school students.
- Build support for transit in Alameda County.
- Develop effective three-year pilot programs.
- Create a basis for a countywide student transit pass program (funding permitting).

THREE-YEAR PILOT PROGRAM

The program was implemented from August 2016 through July 2019, and several pilot program models have been tested during this time to evaluate the best future options for Alameda County. In March 2016, the Commission approved a site selection framework and a shortlist of 36 school sites that are eligible during the three-year pilot program. Throughout this process, feedback was solicited from interested stakeholders.

PROGRAM GOALS

- Reduce transportation access barriers to and from schools.
- Improve transportation options for Alameda County's middle and high school students.
- Build support for transit in Alameda County.
- Develop effective three-year pilot programs.
- Create a framework for a countywide student transit pass program.

THREE-YEAR PILOT PROGRAM

"... The program has helped my family save money."

"... I use UC Transit to get home and AC Transit to go to the mall."

"...It has given me a little more independence ..."

"I was able to get a job, because I have a Clipper card .."

Program Models and Evaluation

PILOT MODELS

Several different models were evaluated during the three-year pilot which account for different transit options, geographies and economic conditions throughout the County. In May 2016, the Commission approved the first year program design. In March 2017, the Commission approved the second year program design. The program design for the third and final year of the pilot was approved by the Commission in February 2018. Two program models (Free/Universal and Free/Means-Based) were assessed in Year Three.

IMPORTANCE OF BUS PASS COST SAVINGS TO PARTICIPANT FAMILIES

PILOT PROGRAM EVALUATION

- In year three, 21 Alameda County schools in seven school districts participated in the STPP program.
 - 11,100 participants in Year Three.
 - The STPP facilitated nearly 1.2 million trips between August 2018 and July 2019. On average, each participant used transit 10 times per month during the school year from September to May.
 - More than half of participating students indicated that the cost savings provided by the STPP is important to the student and his or her family.

As a result of the effective implementation and evaluation of the STPP, in December 2018, the Alameda CTC approved the continuation and expansion of the program for five years beyond the pilot period.

ONGOING PROGRAM COMPONENTS

Phase 1 of the Student Transit Pass Program was implemented in the summer of 2019 and tripled the number of schools from 21 schools in the last year of the pilot to 62 schools throughout the County.

Currently, the Program is more than halfway through the second year of the expanded program. For the 2021-2022 school year. The Program now serves [15 school districts](#) and 89 schools within Alameda County.

The STPP provides free youth Clipper cards to eligible middle and high school students in Alameda County which can be used for unlimited free bus rides in their area (on AC Transit, Union City Transit or LAVTA Wheels), as well as a 50 percent discount on BART trips and youth discounts on other transit systems.

STUDENT TRANSIT PASS PROGRAM EXPANSION NEXT STEPS

The STPP plans to incorporate all qualifying middle and high schools with transit service in Alameda County within the next five years. At the end of the phased expansion, over 140 schools and approximately 58,000 students will have access to the program.

EXPANSION PRINCIPLES

- Maintain financial need as a key criteria for expansion.
- Continue the program in all currently participating schools.
- Focus on students at schools with transit services.
- Perform district-based expansion.
- Phase expansion over time.

TRANSIT PARTNERS
