Subject: Please extend bus lanes and bike lanes on san Pablo into Berkeley ASAP
Date: Sunday, November 7, 2021 6:30:48 PM

Dear ACTC members,

Thank you for taking community feedback into account on San Pablo Ave. Please build bus lanes and bike lanes on San Pablo at the same time that they are being built in Oakland and Emeryville. Given the dual crises of climate change and pedestrian and cyclist deaths we are facing there is no good reason to delay these extremely important measures. I regularly ride my bike on San Pablo to reach stores and restaurants (East Bay Nursery, La Marcha, Mi Tierra Foods, and REI are some of my regular spots) and I would feel much safer with bus and bike lanes! Thank you for your consideration.

Best,
Jordan Burns

Subject: 11/5/2021 ACTC Meeting - Public Comment #Item 5.1
Date: Friday, November 5, 2021 10:34:50 AM

Hi there,

My name is Warren Wells and I am a carless South Berkeley renter. I want to speak in **strong support of extending the bike lanes and bus lanes on San Pablo Avenue into the City of Berkeley**, rather than having them stop at the Oakland/Berkeley border. San Pablo is one of the most dangerous places to ride a bike (I just don't do it, and thus never visit any of the businesses on the street). On the occasions that I do ride the bus, it is slow and gets stuck in traffic.

Let's make a San Pablo Avenue for the future we know we want.

Thank you for your time and consideration.
