Independent Auditor's Report

The Honorable City Council
City of Livermore, California

Report on the Financial Statements

We have audited the accompanying Financial Statements of the Measure B Fund, a special revenue fund of City of Livermore, California (City), as of and for the year ended June 30, 2021, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Measure B Fund of the City, as of June 30, 2021, and the change in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements specific to Measure B are intended to present the financial position and the changes in financial position attributable to the transactions of that Fund. They do not purport to, and do not, present fairly the financial position of the City as of June 30, 2021, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Management has omitted management's discussion and analysis and budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 21, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MEASURE B FUNDS
FOR THE YEAR ENDED JUNE 30, 2021**

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
--

A. *Reporting Entity*

All transactions of the Measure B Direct Local Distribution (DLD) funds of the City of Livermore, California (City) distributed by Alameda County Transportation Commission (ACTC) - Measure B Program (Measure B Program), are combined with other ACTC fundings and reported as a separate special revenue fund in the basic financial statements of the City. The Measure B Program is used to account for the City's share of DLD revenues earned and expenditures incurred under the City's local streets and roads, and bike and pedestrian programs. The accompanying financial statements are for the Measure B Program only and are not intended to fairly present the financial position of the City and the results of its operations.

B. *Basis of Accounting*

The accompanying financial statements are prepared on the modified accrual basis of accounting. Revenues are generally recorded when measurable and available, and expenditures are recorded when the related liabilities are incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a "*current financial resources*" measurement focus, wherein only current assets and current liabilities generally are included on the balance sheets. Operating statements of governmental funds present increased (revenues and other financing sources) and decreased (expenditures and other financing uses) in net current assets.

C. *Description of Funds*

The accounts are maintained on the basis of fund accounting. A fund is a separate accounting entity with a self-balancing set of accounts. The City uses Special Revenue Funds to account for the proceeds of specific revenues (other than for capital projects) that are legally restricted to be expended for specified purposes.

D. *Capital Assets*

Capital assets, consisting primarily of infrastructure, are recorded as expenditures and are not capitalized since they will be maintained by the City.

E. *Use of Estimates*

Management uses estimates and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

ALAMEDA COUNTY TRANSPORTATION COMMISSION
MEASURE B FUNDS
FOR THE YEAR ENDED JUNE 30, 2021**

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 – CASH AND INVESTMENTS

Cash and investments are maintained on a pooled basis with those of other funds of the City. Pooled cash and investments consist of U.S. Treasury or its agencies, money market funds investing in such obligations, medium term corporate notes that meet specified rating requirements, and the State Treasurer’s investment pool (Local Agency Investment Fund). All investments are stated at fair value. Pooled investment earnings are allocated based on the average cash and investment balances of the various funds and related entities of the City.

See the City’s Annual Comprehensive Financial Report for disclosures related to cash and investments and the related custodial risk categorization.

NOTE 3 – MEASURE B PROGRAM

Under Measure B, approved by the voters of Alameda County in 2000, the City receives a portion of the proceeds of an additional on-half cent sales tax to be used for transportation-related expenditures. This measure was adopted with the intention that the funds generated by the additional sales tax will not fund expenditures previously paid by property taxes but, rather, would be used for additional projects and programs.

Projects funded by Measure B 2000 were as follows:

Local Streets and Roads - To improve, repair, and overlay city streets.

Bike and Pedestrian - To provide sidewalk and ADA improvements and to implement the bikeway network.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
City of Livermore, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Measure B Fund (Measure B Fund) of the City of Livermore, California (City), as of and for the year ended June 30, 2021, and have issued our report thereon dated January 21, 2022. Our opinion included an emphasis of matter as discussed in Note 1, that the financial statements present only the Fund specific to Measure B Fund and are not intended to present fairly the financial position and results of operations of the City in conformity with accounting principles generally accepted in the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (Internal Control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Measure B Fund's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements including the applicable compliance requirements specified in the Measure B agreement between the City and Alameda County Transportation Commission, and noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
