West Las Positas is identified in the County's Bike Plan as the City's major east west regional connection. The City is dedicated to providing a sustainable transportation system focusing on multimodal transportation infrastructure. The West Las Positas Project will create a major backbone for the "All Users and Abilities Network" and will serve as a low stress alternative transportation connection which will link multiple schools, the City's central business district, residential neighborhoods, the Regional Iron Horse Trail and major retail centers together so that a convenient alternative to passenger vehicle travel is available and spans the City.

2. Describe how your reported DLD expenditures specifically addressed safety.
